WHY KINDNESS MATTERS

Did you know that being kind actually makes YOUR brain happier? Scientists have proven that acts of kindness release feel-good chemicals in your brain. Kindness is contagious - when you're kind to one person, they're more likely to be kind to someone else. One act of kindness can create a chain reaction that touches dozens of people! This book gives you 50 specific ways to spread kindness. Each one is simple, doable, and powerful. Are you ready to change the world, one kind act at a time?
