How AI Can Help You Plan

Welcome to a new way of planning your day! AI tools like ChatGPT, Siri, and Google Assistant can help you organize your life effortlessly.

Each daily page in this planner includes an 'Ask AI' suggestion - a prompt you can try with ChatGPT or your voice assistant.

How to use this planner:

1. Start each morning by reading the AI suggestion for the day.
2. Try the prompt with ChatGPT or your preferred AI tool.
3. Write down your priorities and schedule for the day.
4. In the evening, note what AI tool you tried and what you learned.
5. Track your wellness: sleep, water intake, and steps.

You do not need to use AI every day - go at your own pace.

Even trying one new AI prompt per week will build your confidence.

Remember: AI is your assistant, not your boss. You are in control!
