Lesson 1

DALL-E: AI Image Generator

What is it? DALL-E creates images from text descriptions you type.

It is made by OpenAI and is free to try with limited credits.

How to use it:

1. Go to labs.openai.com and sign in with your OpenAI account.
2. Click 'Create' and type a description of the image you want.
3. Be specific: describe colors, style, mood, and subject.
4. Click 'Generate' and wait about 15 seconds for your images.
5. Choose your favorite from the options and click Download.

Practice prompt to try:

"A peaceful cottage garden with roses at sunset, watercolor style"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 2

Midjourney: Advanced AI Art

What is it? Midjourney creates stunning artistic images from text prompts.

It works through Discord (a free chat app) and produces beautiful results.

How to use it:

1. Download Discord (free) and create an account.
2. Go to midjourney.com and join their Discord server.
3. Find a 'newbies' channel and type /imagine followed by your description.
4. Wait 60 seconds for four image options to appear.
5. Click U1-U4 to upscale your favorite, or V1-V4 for variations.

Practice prompt to try:

"A majestic mountain landscape with autumn colors, oil painting style"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 3

ChatGPT for Creative Writing

What is it? ChatGPT can help you write stories, poems, and creative content.

It works like a collaborative writing partner who never gets tired.

How to use it:

1. Go to chat.openai.com and log into your free account.
2. Start with: 'Help me write a short story about...' and describe your idea.
3. Ask it to continue, change the tone, or make it longer or shorter.
4. Request specific styles: 'Write this in the style of a fairy tale.'
5. Copy your favorite result and edit it to add your personal voice.

Practice prompt to try:

"Write a heartwarming short story about a grandfather teaching his grandson to fish"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 4

AI Music Generators

What is it? AI can now compose original music in any style you choose.

Tools like Suno and Udio create full songs from simple descriptions.

How to use it:

1. Visit suno.ai and create a free account.
2. Click 'Create' and describe the music you want in plain English.
3. Specify genre, mood, and instruments: 'peaceful jazz piano'.
4. Wait about 30 seconds for the AI to generate your song.
5. Listen, download, and share your creation with friends and family.

Practice prompt to try:

"A relaxing acoustic guitar melody perfect for a Sunday morning"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 5

AI Video Tools

What is it? AI can help you create and edit videos without professional skills.

Tools like Runway and Lumen5 make video creation accessible to everyone.

How to use it:

1. Visit lumen5.com and create a free account.
2. Choose 'Create a video' and paste in text or a blog post.
3. The AI automatically selects matching images and creates slides.
4. Customize colors, fonts, and music to match your style.
5. Export and share your video on social media or with family.

Practice prompt to try:

"Create a 1-minute video slideshow of my vacation photos with relaxing music"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 6

Canva AI Design Tools

What is it? Canva is a free design tool that now includes powerful AI features.

You can create cards, posters, social media posts, and presentations.

How to use it:

1. Go to canva.com and create a free account.
2. Click 'Create a design' and choose your format (poster, card, etc).
3. Use 'Magic Write' to generate text content for your design.
4. Use 'Text to Image' to create custom artwork for your project.
5. Download or share your finished design directly from Canva.

Practice prompt to try:

"Design a birthday party invitation with a garden theme"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 7

AI Photo Editors

What is it? AI photo editing tools can fix, enhance, and transform your photos.

They can remove backgrounds, fix lighting, and even restore old photos.

How to use it:

1. Upload a photo to an AI editor like Pixlr.com or Fotor.com.
2. Try 'Auto Enhance' to instantly improve colors and lighting.
3. Use 'Remove Background' to isolate a person from their surroundings.
4. Try 'Restore Old Photo' to fix damaged or faded vintage photos.
5. Save your edited photo and compare it with the original.

Practice prompt to try:

"Enhance and colorize an old black and white family photo"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 8

AI Presentation Makers

What is it? AI can build professional presentations from just a topic or outline.

Tools like Gamma.app create beautiful slides in minutes, not hours.

How to use it:

1. Visit gamma.app and sign up for a free account.
2. Click 'Create New' and choose 'Presentation'.
3. Type your topic and let AI generate an outline with suggested content.
4. Review and customize each slide - change text, images, and layout.
5. Present directly from the tool or export as a PDF.

Practice prompt to try:

"Create a 10-slide presentation about the history of my hometown"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 9

AI Resume Builders

What is it? AI resume tools can help you create a professional resume quickly.

They suggest wording, format your experience, and optimize for job searches.

How to use it:

1. Visit an AI resume tool like resume.io or Kickresume.
2. Enter your work history, skills, and education.
3. Let the AI suggest improvements to your descriptions.
4. Choose a professional template that suits your industry.
5. Download as a PDF ready to send to potential employers.

Practice prompt to try:

"Create a resume highlighting 20 years of customer service experience"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 10

AI Email Writers

What is it? AI can draft professional and personal emails in seconds.

Just describe what you want to say and let AI handle the wording.

How to use it:

1. Open ChatGPT or use a browser extension like Compose AI.
2. Describe the email you need: who it is to, the topic, and the tone.
3. Specify: formal or casual, short or detailed, friendly or professional.
4. Review the draft and make any personal changes you want.
5. Copy the text into your email app and send.

Practice prompt to try:

"Write a polite email to my landlord requesting a maintenance repair"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 11

AI Recipe Generators

What is it? AI can create custom recipes based on your ingredients and preferences.

Tell it what you have in your kitchen and it will suggest what to cook.

How to use it:

1. Open ChatGPT and type what ingredients you have available.
2. Specify dietary needs: low sodium, diabetic-friendly, vegetarian, etc.
3. Ask for cooking time and difficulty level you prefer.
4. Request step-by-step instructions with exact measurements.
5. Ask for substitutions if you are missing any ingredients.

Practice prompt to try:

"Create a healthy dinner recipe using chicken, rice, and broccoli for 2 people"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 12

AI Travel Planners

What is it? AI can plan entire trips tailored to your interests and budget.

It considers your preferences, mobility needs, and schedule.

How to use it:

1. Open ChatGPT and describe your dream trip destination and dates.
2. Specify your budget, mobility needs, and interests.
3. Ask for a day-by-day itinerary with specific activities.
4. Request restaurant recommendations and booking tips.
5. Ask about the best time to visit and what to pack.

Practice prompt to try:

"Plan a 5-day relaxing trip to Italy for a couple in their 60s who love food and history"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 13

AI Language Tutors

What is it? AI can teach you a new language at your own pace with infinite patience.

It adapts to your level and lets you practice conversation anytime.

How to use it:

1. Open ChatGPT and say 'Teach me basic Spanish conversation'.
2. Practice by asking it to have a simple conversation in the language.
3. Ask it to correct your grammar and explain rules simply.
4. Request vocabulary lists on topics you care about (travel, food, family).
5. Practice daily for 10 minutes - consistency beats long sessions.

Practice prompt to try:

"Teach me how to order food at a restaurant in French"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 14

AI Audiobook Creators

What is it? AI can turn your written content into professional-sounding audiobooks.

Text-to-speech has gotten remarkably natural and easy to use.

How to use it:

1. Visit an AI voice tool like ElevenLabs or NaturalReader.
2. Paste or upload the text you want converted to audio.
3. Choose a voice style that matches your content (warm, professional).
4. Preview the audio and adjust speed or pronunciation if needed.
5. Download the audio file to listen to or share.

Practice prompt to try:

"Convert my 3-page family history essay into an audiobook with a warm narrator voice"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 15

AI Greeting Card Makers

What is it? AI can help you design personalized greeting cards for any occasion.

Combine AI-generated art with AI-written messages for unique cards.

How to use it:

1. Use Canva or a dedicated card tool with AI features.
2. Describe the occasion and who the card is for.
3. Let AI generate artwork or choose from suggestions.
4. Use AI to write a heartfelt personal message inside.
5. Print at home or order professional printing online.

Practice prompt to try:

"Design a sympathy card with a peaceful nature scene and comforting message"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 16

AI Genealogy Tools

What is it? AI can help you research your family history and build your family tree.

It can interpret old documents and suggest research directions.

How to use it:

1. Visit a genealogy site like FamilySearch.org (free) or Ancestry.com.
2. Enter what you know about your parents and grandparents.
3. Use AI features to find matches in historical records automatically.
4. Ask ChatGPT to help interpret old documents or handwriting.
5. Build a visual family tree to share with relatives.

Practice prompt to try:

"Help me find information about my great-grandparents who came from Ireland in 1900"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 17

AI Health Information

What is it? AI can help you understand health topics and prepare for doctor visits.

It explains medical terms simply and helps you ask better questions.

How to use it:

1. Ask ChatGPT to explain a medical condition in simple language.
2. Request a list of questions to ask your doctor at your next visit.
3. Ask about side effects of medications in plain English.
4. Use AI to understand your lab results (general education only).
5. Remember: AI provides information, not medical advice. Always consult your doctor.

Practice prompt to try:

"Explain what high cholesterol means and what questions I should ask my doctor"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 18

AI Garden Planners

What is it? AI can design your garden layout based on your climate and preferences.

It knows what grows well together and when to plant each item.

How to use it:

1. Tell ChatGPT your location, garden size, and sunlight conditions.
2. Describe what you want to grow: flowers, vegetables, herbs, or mixed.
3. Ask for a planting schedule month by month.
4. Request companion planting suggestions (which plants help each other).
5. Ask for maintenance tips specific to your plants and region.

Practice prompt to try:

"Design a small vegetable garden for a sunny backyard in Zone 7"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 19

AI Home Decorating

What is it? AI can suggest interior design ideas based on your space and style.

Describe your room and preferences for personalized suggestions.

How to use it:

1. Describe your room: size, current colors, natural light, and furniture.
2. Tell the AI your style preference: modern, traditional, cozy, minimalist.
3. Ask for color palette suggestions that work together.
4. Request furniture arrangement ideas for better flow.
5. Ask for budget-friendly ways to refresh a room.

Practice prompt to try:

"Suggest a cozy living room makeover for a small space with lots of books"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)

Lesson 20

Final Project: Your AI Creative Portfolio

What is it? Congratulations! You have learned 19 AI creative tools.

Now create your own portfolio combining multiple tools you enjoyed.

How to use it:

1. Choose your 3 favorite AI tools from this workbook.
2. Create one project using each of those 3 tools.
3. Combine them: an AI image, AI writing, and AI presentation about yourself.
4. Share your creations with a friend or family member.
5. Keep exploring - new AI tools are released every month!

Practice prompt to try:

"Create a personal 'About Me' page using AI art, AI writing, and AI design"

Write your own prompt:

Paste or describe your result:

Rate your result: 1 2 3 4 5 (circle one)
