Chapter 5: Banking Explained

Chapter 6: Investing Intro (Compound Interest Magic!)

Chapter 7: Entrepreneurship for Girls

Chapter 8: The Wage Gap (And How to Fight It)

Chapter 9: Financial Independence

Chapter 10: Generosity and Giving

Chapter 11: Wants vs Needs

Chapter 12: Smart Shopping

Chapter 13: Avoiding Debt Traps

Chapter 14: College Planning Basics

Chapter 15: Your Money Vision Board

WHY MONEY MATTERS FOR GIRLS

ROLE MODEL: Sara Blakely (Spanx founder)

Sara Blakely turned \$5,000 in savings into a billion-dollar company. She never took outside investors. She owned 100% of her creation because she understood that financial independence means freedom.

THE LESSON

Throughout history women were not allowed to own property, have bank accounts, or control their own money. It was not until 1974 that women in America could get credit cards without a male cosigner. Financial literacy for girls is not just about money. It is about FREEDOM.

Women live longer than men on average, earn less due to the wage gap, and take more career breaks for caregiving. This means financial literacy is even MORE important for girls. Understanding money young gives you decades of advantage.

Money is not evil or shallow. Money is a tool. It buys safety, choices, education, experiences, and the ability to help others. The more financially educated you are, the more good you can do in the world.

Financial literacy means: understanding how money works, how to earn it, save it, grow it, and use it wisely. It does not mean being greedy. It means being SMART.

Why Money Matters for Girls - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about why money matters for girls?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Remember: Financial literacy is FREEDOM!

EARNING YOUR OWN MONEY (12 IDEAS)

ROLE MODEL: Oprah Winfrey

Oprah's first job was at a grocery store at age 13. She worked hard at every job she had, learning something valuable at each one. She eventually built a media empire worth billions starting from nothing.

THE LESSON

Earning your own money teaches you things that school cannot: responsibility, time management, customer service, problem-solving, and the value of hard work. Even small amounts add up and build confidence.

12 ways girls ages 10-15 can earn money: 1) Babysitting (take a safety course first), 2) Pet sitting or dog walking, 3) Tutoring younger kids, 4) Selling crafts online or at markets, 5) Lawn mowing or gardening, 6) Car washing, 7) Social media management for small businesses, 8) Selling baked goods, 9) Running errands for neighbors, 10) Teaching tech skills to seniors, 11) Organizing or cleaning for neighbors, 12) Starting a YouTube or blog about your passion.

Tips for young earners: always do more than expected, be reliable and on time, save receipts, track your earnings, build a reputation for excellence, and reinvest in your business.

Start a simple business plan: What will you offer? Who will pay for it? How much will you charge? How will people find you? Even a simple plan puts you ahead of most adults!

Earning Your Own Money (12 Ideas) - Activity & Challenge

MONEY ACTIVITY:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about earning your own money (12 ideas)?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Remember: Financial literacy is FREEDOM!

SAVING STRATEGIES

ROLE MODEL: JK Rowling

Before Harry Potter made her wealthy, JK Rowling was a single mother on government assistance. She understood the power of saving every penny because she had lived without. Her frugal habits stayed even after millions came.

THE LESSON

The 50-30-20 rule adapted for kids: 50% savings, 30% spending money, 20% giving. Every dollar you earn, split it this way. This builds habits that will serve you for life.

Types of savings: emergency fund (for unexpected needs), short-term savings (for things you want to buy soon), long-term savings (for big goals like college, a car, travel), and investment savings (money you want to GROW).

Savings tips: pay yourself FIRST (save before spending, not after), automate if possible, use clear jars or accounts for different goals so you can SEE progress, and celebrate milestones.

The latte factor for teens: small daily spending adds up. A \$5 daily treat equals \$1,825 per year. You do not have to cut everything fun, but knowing the math helps you make informed choices.

Saving Strategies - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about saving strategies?

2. How can you apply this to your life starting today?

Saving Strategies - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

Remember: Financial literacy is FREEDOM!

BUDGETING BASICS

ROLE MODEL: Beyonce

Beyonce runs a massive business empire and every dollar is carefully planned and budgeted. She has said that being smart with money is what allows her to be creative with her art. Budgets create freedom, not restriction.

THE LESSON

A budget is simply a plan for your money. It tells your money where to go BEFORE you spend it. Without a budget, money disappears and you cannot figure out where it went.

How to create your first budget: 1) List all money coming in (allowance, earnings, gifts), 2) List what you MUST spend (school supplies, phone bill if you pay it), 3) Decide savings amount, 4) Plan fun spending with what remains.

Track every dollar for one month. Write down every single thing you buy. Most people are shocked at where their money actually goes. Awareness is the first step to control.

Budget tools: a simple notebook, spreadsheet, or free apps. The tool does not matter. What matters is that you have a system and check it regularly.

Budgeting Basics - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about budgeting basics?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Budgeting Basics - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

BANKING EXPLAINED

ROLE MODEL: Abigail Johnson (Fidelity Investments)

Abigail Johnson runs one of the world's largest financial companies. She learned about banking and investments from a young age and now manages trillions of dollars for millions of families.

THE LESSON

A bank is a safe place to keep your money that also pays you a tiny amount (interest) for letting them hold it. It is much safer than keeping cash at home.

Types of accounts: Savings account (earns interest, best for money you do not need right away), Checking account (for daily spending and bills), Certificate of Deposit (higher interest but money is locked for a set time).

How to open your first account: most banks require a parent co-signer if you are under 18. Bring your ID and Social Security number. Start with a savings account and add checking when you need it.

Banking terms to know: interest (money the bank pays you), balance (how much you have), deposit (putting money in), withdrawal (taking money out), overdraft (spending more than you have - avoid this!).

Banking Explained - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about banking explained?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Banking Explained - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

INVESTING INTRO (COMPOUND INTEREST MAGIC!)

ROLE MODEL: Warren Buffett's wisdom

Warren Buffett bought his first stock at age 11 and says his only regret is not starting even earlier. He says the most powerful force in the universe is compound interest. Starting young is your biggest advantage.

THE LESSON

Investing means putting your money to work so it GROWS on its own. Instead of just saving \$1, you invest it and let it multiply over time.

Compound interest explained: imagine you have \$100 earning 10% per year. After year 1: \$110. After year 2: \$121 (you earn interest on your INTEREST). After 30 years: \$1,745! After 40 years: \$4,526! Starting young means your money has more time to compound.

If you invest \$50 per month starting at age 15 (with average market returns of 10%), by age 65 you would have over \$700,000. If you wait until 25 to start, you would only have about \$300,000. Those 10 early years are worth \$400,000!

Types of investments for beginners: index funds (own a tiny piece of many companies), bonds (loan money to companies or government), savings accounts (lowest return but safest). Ask a parent about custodial accounts.

Investing Intro (Compound Interest Magic!) - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

ENTREPRENEURSHIP FOR GIRLS

ROLE MODEL: Whitney Wolfe Herd (Bumble)

Whitney Wolfe Herd founded Bumble at age 25 and became the youngest self-made female billionaire. She saw a problem (women deserved more power in dating) and created a solution. Entrepreneurship starts with noticing problems.

THE LESSON

An entrepreneur is someone who creates a business to solve a problem or fill a need. You do not need to be an adult or have a million-dollar idea. Start small, start NOW.

Steps to start: 1) Identify a problem people have, 2) Create a solution, 3) Test it with a few customers, 4) Improve based on feedback, 5) Grow gradually.

Girl entrepreneur ideas: custom T-shirt designs, social media management for local shops, handmade jewelry or crafts, tutoring service, pet photography, birthday party planning, reselling thrift finds, digital art commissions.

Entrepreneurship teaches: creativity, resilience (handling rejection), marketing, financial management, communication, and confidence. Even if your first business fails, the skills last forever.

Entrepreneurship for Girls - Activity & Challenge

MONEY ACTIVITY:

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Remember: Financial literacy is FREEDOM!

THE WAGE GAP (AND HOW TO FIGHT IT)

ROLE MODEL: Megan Rapinoe

Megan Rapinoe and the US Women's Soccer Team fought for equal pay after winning the World Cup while earning significantly less than the men's team who performed worse. Their fight changed history.

THE LESSON

On average, women earn 82 cents for every dollar men earn for the same work. For women of color, the gap is even wider. This is not because women work less hard or are less capable.

Why the gap exists: historical discrimination, women being socialized not to negotiate, career breaks for caregiving, bias in hiring and promotions, and occupations dominated by women being undervalued.

How to fight it personally: 1) Choose high-earning fields if that interests you, 2) ALWAYS negotiate your salary (practice this skill young!), 3) Know your worth and never accept less, 4) Support policies for pay transparency and equal pay.

Negotiation practice: ask for what you want clearly and confidently. Start practicing now: negotiate your allowance, your curfew, your responsibilities. Every negotiation is practice for your future salary.

The Wage Gap (And How to Fight It) - Activity & Challenge

MONEY ACTIVITY:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about the wage gap (and how to fight it)?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

FINANCIAL INDEPENDENCE

ROLE MODEL: Madam CJ Walker

Madam CJ Walker became America's first self-made female millionaire in the early 1900s. Born to former slaves, she built a beauty empire through sheer determination. She said money gave her the freedom to help her community.

THE LESSON

Financial independence means having enough money that you never HAVE to depend on someone else for your basic needs. It means freedom to leave a bad relationship, bad job, or bad situation.

Steps to financial independence: 1) Always have your own income, 2) Keep an emergency fund (3-6 months of expenses), 3) Invest consistently, 4) Live below your means, 5) Never give complete financial control to someone else.

Why this matters for women specifically: throughout history, financial dependence trapped women in terrible situations. Having your own money means having choices. Choices mean freedom.

Start building independence now: save, earn, learn about money, understand how banking and investing work. Your future self will thank you for every dollar you save and every lesson you learn today.

Financial Independence - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Financial Independence - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

GENEROSITY AND GIVING

ROLE MODEL: MacKenzie Scott

MacKenzie Scott has given away over \$14 billion to charitable causes, focusing on organizations led by women and people of color. She demonstrates that the purpose of wealth is not just personal comfort but making the world better.

THE LESSON

Having money is not just about spending it on yourself. Part of being financially literate is understanding the power of giving and building generosity into your financial plan from the start.

Ways to give: donate money to causes you care about, donate time (volunteering), donate skills (tutoring, mentoring), support friends' businesses, tip generously when you can, fundraise for important causes.

The 10% principle: many financially successful people give away 10% of everything they earn. If you start this habit now, giving becomes natural rather than painful.

Giving makes you happier. Research shows that spending money on others activates the same brain regions as eating good food. Generosity is literally good for your brain and your community.

Generosity and Giving - Activity & Challenge

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about generosity and giving?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Remember: Financial literacy is FREEDOM!

WANTS VS NEEDS

ROLE MODEL: Michelle Obama

Michelle Obama grew up in a modest home where every dollar was carefully considered. Her parents taught her the difference between wanting something and needing it. This discipline helped her become debt-free and financially secure long before the White House.

THE LESSON

Needs are things essential for survival and basic functioning: food, shelter, clothing, healthcare, transportation to school. Wants are everything else: the latest phone, brand-name clothes, entertainment.

The 24-hour rule: when you want to buy something non-essential, wait 24 hours. If you still want it tomorrow, consider it. This simple rule prevents impulse purchases that you regret.

Marketing is designed to make wants FEEL like needs. Companies spend billions making you believe you cannot live without their product. Being media literate means recognizing manipulation.

Distinguishing wants from needs is not about never treating yourself. It is about making CONSCIOUS choices. Sometimes choosing the want is perfectly fine. The key is that it is a choice, not an impulse.

Wants vs Needs - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about wants vs needs?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Wants vs Needs - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

SMART SHOPPING

ROLE MODEL: Tory Burch

Fashion designer Tory Burch built a billion-dollar brand by understanding that smart shopping means getting the best VALUE, not always the cheapest price. Quality items that last are smarter purchases than cheap items you replace constantly.

THE LESSON

Smart shopping means: comparing prices before buying, waiting for sales on big purchases, understanding the cost-per-use concept (a \$60 jacket worn 100 times costs 60 cents per wear), and avoiding impulse buys.

Cost per use: divide the price by how many times you will use something. A \$30 shirt worn once costs \$30 per wear. A \$60 shirt worn 50 times costs \$1.20 per wear. The more expensive item is actually the better deal.

Shopping tips: make a list and stick to it, never shop when emotional (bored, sad, or stressed), research big purchases, check reviews, look for student discounts, and remember that sales are only good deals if you actually need the item.

Social media makes you want things constantly. Before buying something you saw advertised, ask: did I want this before I saw the ad? If not, the want was manufactured by marketing, not by your actual needs.

Smart Shopping - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about smart shopping?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Smart Shopping - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

AVOIDING DEBT TRAPS

ROLE MODEL: Suze Orman

Financial expert Suze Orman was once \$250,000 in debt and spent years digging out. She now teaches millions of women about avoiding the debt traps that keep people financially stuck for decades.

THE LESSON

Debt means spending money you do not have yet. Credit cards, loans, and buy-now-pay-later schemes all create debt. Some debt (education, home) can be strategic. But consumer debt (stuff you buy) is a trap.

How credit cards actually work: you borrow money at 15-25% interest. If you buy a \$100 item and only pay the minimum each month, you might end up paying \$150 or more total. The bank profits from your inability to pay in full.

Avoiding debt traps: only buy what you can afford with cash, if you use a credit card always pay the FULL balance each month, avoid buy-now-pay-later schemes, and never borrow money for wants (only needs if absolutely necessary).

The snowball effect of debt: debt leads to stress, which leads to emotional spending, which leads to more debt. Breaking this cycle requires awareness, discipline, and often outside help. Prevention is much easier than cure.

Avoiding Debt Traps - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Avoiding Debt Traps - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

COLLEGE PLANNING BASICS

ROLE MODEL: Ruth Bader Ginsburg

Ruth Bader Ginsburg worked her way through Columbia Law School while raising a baby and caring for a sick husband. She understood that education was her path to changing the world and found every possible way to fund it.

THE LESSON

College can be expensive but there are many ways to reduce or eliminate the cost: scholarships, grants, community college for the first two years, work-study programs, and state schools with in-state tuition.

Start scholarship hunting early: many scholarships are for younger students, not just seniors. Academic, athletic, artistic, community service, and essay scholarships add up. Apply to MANY.

Saving for college: if you save \$50/month from age 12 to 18, you will have about \$3,600 plus interest. Combined with scholarships and financial aid, this can make a significant difference.

Consider return on investment: some degrees lead to high-paying careers, others do not. This does not mean you should only study lucrative fields, but understand the financial implications of your educational choices.

College Planning Basics - Activity & Challenge

1. What is the main lesson of this chapter about college planning basics?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Remember: Financial literacy is FREEDOM!

YOUR MONEY VISION BOARD

ROLE MODEL: Venus Williams

Venus Williams visualized her success from childhood. She did not just dream of winning tennis matches but of building businesses, investing wisely, and creating generational wealth. She now owns multiple companies beyond tennis.

THE LESSON

A money vision board is a visual representation of your financial goals: what you want to buy, save for, earn, build, and give. It keeps your goals visible and your motivation strong.

Create your board: include short-term goals (this year), medium-term goals (5 years), and long-term goals (lifetime). Include images of experiences, not just things. Travel, education, a home, starting a business.

Under each goal, write the specific dollar amount needed and a simple plan: how much to save monthly, what to earn, what timeline is realistic.

Review your vision board monthly. Update it as goals change. Celebrate when you achieve something on it! Financial goals are not just about money. They are about the LIFE you want to build.

Your Money Vision Board - Activity & Challenge

MONEY ACTIVITY:

Apply what you learned in this chapter:

REAL-WORLD CHALLENGE:

Do ONE thing this week to practice this financial skill:

QUICK QUIZ - Test Your Knowledge:

1. What is the main lesson of this chapter about your money vision board?

2. How can you apply this to your life starting today?

3. What is one money mistake you want to avoid?

Your Money Vision Board - Notes & Goals

MY FINANCIAL GOALS FOR THIS AREA:

Remember: Financial literacy is FREEDOM!

YOUR FINANCIAL FUTURE IS BRIGHT!

You now know more about money than most adults did at your age.

Use this knowledge wisely. Build your wealth.

Create the freedom-filled life you deserve.
