HOW TO USE CHATGPT

WHAT IS CHATGPT?

ChatGPT is a free AI assistant you can talk to by typing. Think of it like texting a very knowledgeable friend who is available 24/7.

HOW TO GET STARTED:

1. Go to chat.openai.com on your computer or phone
2. Create a free account (just need an email address)
3. You will see a text box - that is where you type your 'prompt'
4. Type your question or request and press Enter
5. ChatGPT will respond in seconds!

TIPS FOR BEST RESULTS:

- Be specific: 'Give me a recipe for chicken soup' works better than just 'food ideas'
- Give context: 'I have diabetes' helps it tailor health advice
- Ask follow-ups: Say 'Make it simpler' or 'Give me more detail'
- It is a conversation: You can keep asking questions
- Copy and paste: You can copy prompts from this book directly

IMPORTANT REMINDERS:

- ChatGPT can make mistakes - always verify important information
- Never share passwords, Social Security numbers, or bank info
- It is not a doctor - use health info as a starting point only
- It cannot access the internet in real-time (no current news)
- You can start a new conversation anytime

HOW TO USE THIS BOOK:

Each prompt is written in **BOLD** - type it exactly as shown.

'Why this helps' explains what you will get back.

'My result' space is for you to write notes about what worked.

CATEGORY: HEALTH

PROMPT #1

Explain what my cholesterol numbers mean in simple terms. My total is 220, HDL is 45, LDL is 150, triglycerides are 180.

Why this helps: Helps you understand lab results before your doctor visit.

My result: _____
