UNDERSTANDING CHOLESTEROL

Cholesterol is a waxy substance your body needs, but too much of the wrong kind can build up in arteries and cause heart disease.

HDL (High-Density Lipoprotein) - 'GOOD' cholesterol

- Removes cholesterol from arteries
- Higher is BETTER (aim for 60+ mg/dL)
- Raised by: exercise, healthy fats, not smoking

LDL (Low-Density Lipoprotein) - 'BAD' cholesterol

- Deposits cholesterol IN arteries (forms plaque)
- Lower is BETTER (aim for under 100 mg/dL)
- Lowered by: diet, exercise, medications (statins)

TRIGLYCERIDES - Blood fats from food

- High levels increase heart disease risk
- Aim for under 150 mg/dL
- Lowered by: reducing sugar, alcohol, refined carbs

TOTAL CHOLESTEROL = HDL + LDL + (Triglycerides / 5)

- Desirable: under 200 mg/dL
- Borderline high: 200-239 mg/dL
- High: 240+ mg/dL

WHY IT MATTERS:

High cholesterol has NO SYMPTOMS until a heart attack or stroke.

The ONLY way to know your numbers is through a blood test.

Regular monitoring helps you catch changes early.

HEALTHY RANGES REFERENCE CHART

CHOLESTEROL LEVELS (mg/dL):

Measure	Optimal	Borderline	High Risk
Total Cholesterol	< 200	200-239	240+
LDL ('Bad')	< 100	100-159	160+
HDL ('Good')	60+	40-59	< 40
Triglycerides	< 150	150-199	200+

BLOOD PRESSURE (mmHg):

- Normal: < 120/80
- Elevated: 120-129 / < 80
- Stage 1 Hypertension: 130-139 / 80-89
- Stage 2 Hypertension: 140+ / 90+
- Crisis (call 911): 180+ / 120+

HEART RATE (resting):

- Normal adult: 60-100 bpm
- Athletic: 40-60 bpm
- Concerning: consistently above 100 bpm at rest

RISK FACTORS I HAVE (check all that apply):

- ☐ Family history of heart disease
- ☐ High blood pressure
- ☐ Diabetes
- ☐ Smoker/former smoker
- ☐ Overweight/obese
- ☐ Sedentary lifestyle
- ☐ High stress
- ☐ Age (men 45+, women 55+)
- ☐ Poor diet

MY HEALTH PROFILE

Name: _____ DOB: ____/____/____

Height: _____ Weight: _____ BMI: _____

CURRENT NUMBERS (most recent lab work):

Date tested: ____/____/____

Total Cholesterol: _____ mg/dL

HDL: _____ mg/dL

LDL: _____ mg/dL

Triglycerides: _____ mg/dL

TC/HDL Ratio: _____
